Foundations of Disaster Mental Health

The purpose of this basic level Disaster Services training is to prepare licensed mental health professionals to provide for and respond to the psychological needs of people across the continuum of disaster preparedness, response and recovery.

American Red Cross
San Luis Obispo County Chapter

Monty Clouse, Ph.D. and **Killorin Riddell, Ph.D.** are the Co-Leads for Disaster Mental Health, San Luis Obispo County Chapter, American Red Cross, and have been active responders and trainers in Red Cross for the past 16 years. They are also active on the San Luis Obispo County Critical Incident Stress Management Team. Dr. Clouse is the Central Coast Psychological Association's Disaster Response Chairperson. In addition to those community voluntary efforts, Drs. Riddell and Clouse are owners of Trauma Intervention Specialists, a consulting firm dedicated to psycho-social emergency preparedness.

The **objectives** are to build a team/community, to further trauma response and disaster mental health knowledge and skills through training, and to give everyone an opportunity to talk together about experiences, needs and goals. In the event of a large disaster, these relationships will help us to be able to respond efficiently.
